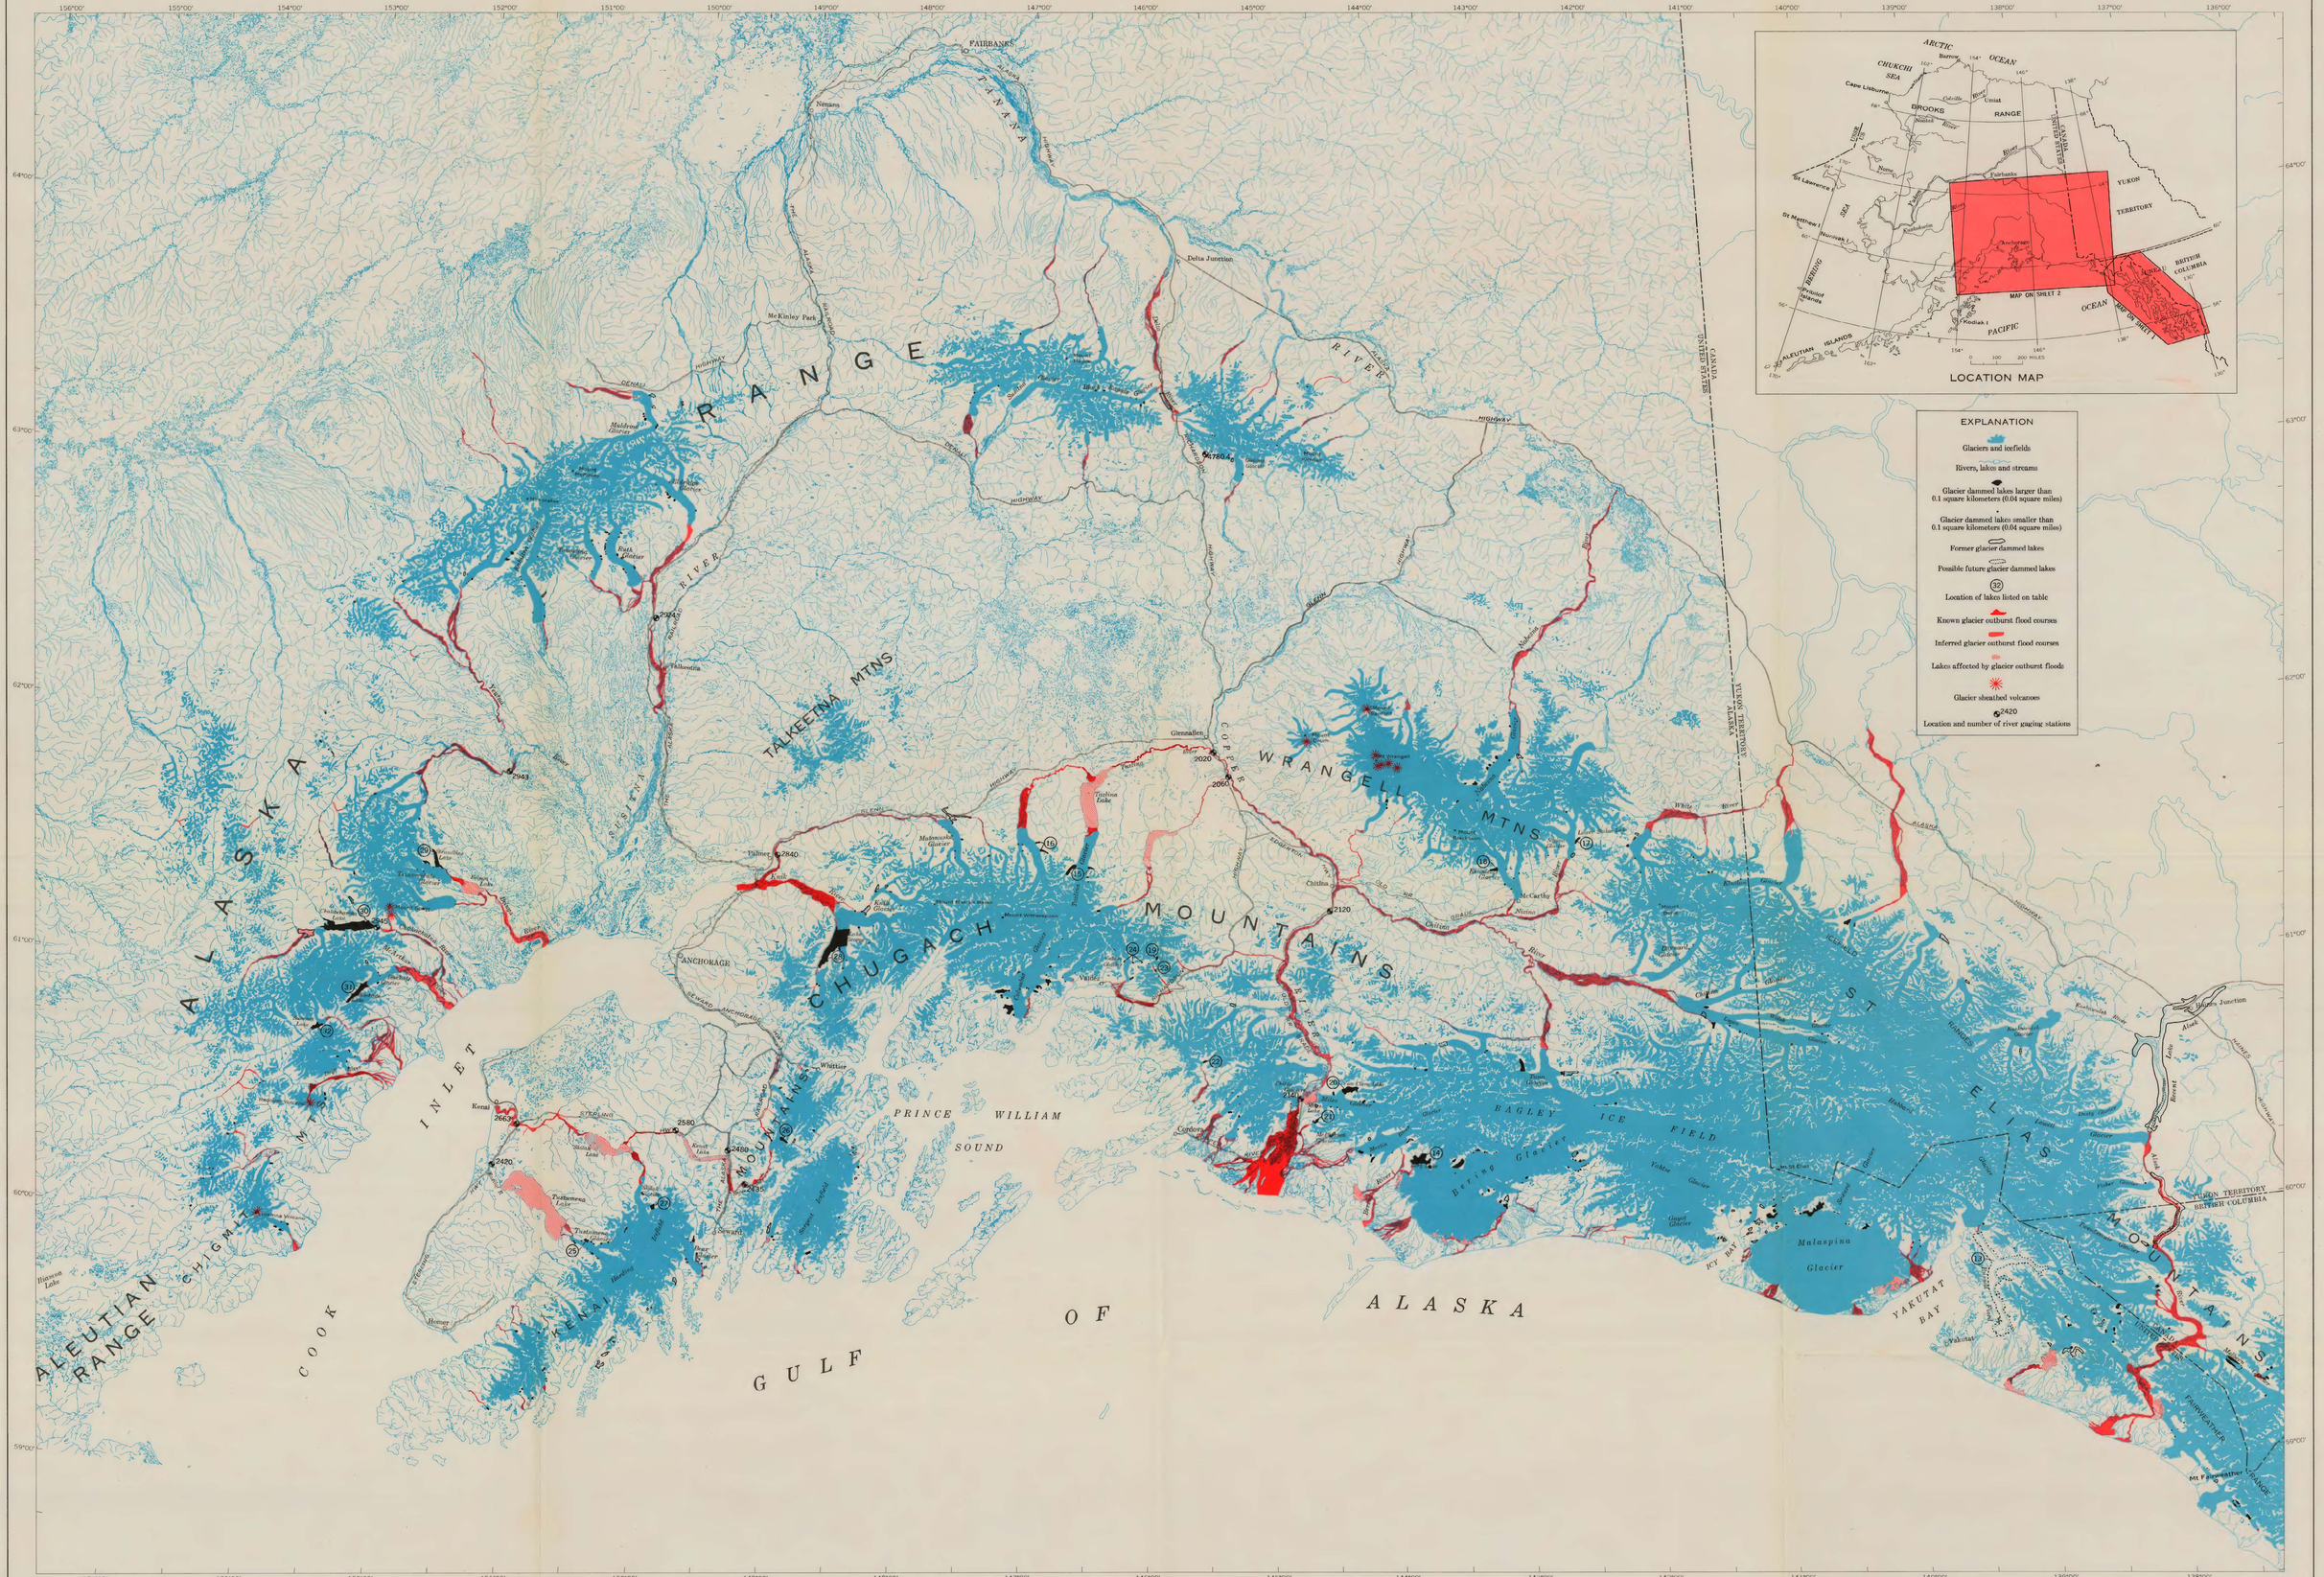
DEPARTMENT OF THE INTERIOR
UNITED STATES GEOLOGICAL SURVEY

HYDROLOGIC INVESTIGATIONS
ATLAS HA-455(SHEET 2 OF 3)



LOCATION MAP

EXPLANATION

- Glaciers and icefields
- Rivers, lakes and streams
- Glacier dammed lakes larger than 0.1 square kilometers (0.04 square miles)
- Glacier dammed lakes smaller than 0.1 square kilometers (0.04 square miles)
- Former glacier dammed lakes
- Possible future glacier dammed lakes
- (32) Location of lakes listed on table
- Known glacier outburst flood courses
- Inferred glacier outburst flood courses
- Lakes affected by glacier outburst floods
- Glacier sheathed volcanoes
- 2420 Location and number of river gaging stations

Base from U.S. Geological Survey and Canadian topographic maps, scale 1:250,000. Glacier delineation by Austin Post, 1970

SCALE 1:1 000 000

MAP SHOWING LOCATION OF GLACIERS, GLACIER-DAMMED LAKES, GLACIER-SHEATHED VOLCANOES AND AREAS SUBJECT TO OUTBURST FLOODING IN SOUTH CENTRAL ALASKA

GLACIER DAMMED LAKES AND OUTBURST FLOODS IN ALASKA
